

## CSE RANGE

CIRCULAR SURFACE MOUNTED OR RECESSED EMERGENCY DOWNLIGHT

The CSE range offers a choice of a surface mounted or recessed compact bulkhead. These stylish luminaires are fitted with extra-long life LiFePO batteries making them ideal for difficult to maintain areas.

They come with 3W LED diodes in white polycarbonate bodies to allow for both mounting options, with either open area or corridor lenses. They are supplied as standard with DALI self-test control gear, which will revert to standard self-test in the absence of a DALI signal.

LUMINAIRE CAT NO.	VERSION	LUMEN OUTPUT	WEIGHT KG
CSE/3W/NM	NON-MAINTAINED	260	2.5
