

## MXM RANGE

### ELEGANT SLIMLINE SURFACE MOUNTED EXIT

This elegant emergency exit sign incorporates the latest LED technology. This 'picture frame' appearance with a slightly smaller legend makes for an attractive installation.

The MXM has 15 high output white LED's which provide a clear and even light over the legend which has a 25 meter viewing distance. All fittings are wired with an integral 3 hour emergency kit. Self-test and DALI EM-Pro options are also available.

The luminaire is mounted onto the wall through the back plate using two keyhole slots and 2 screw points or via a centrally mounted BEZA entry.

| LUMINAIRE<br>CAT NO. | VERSION    | POWER<br>tcW | WEIGHT<br>KG |
|----------------------|------------|--------------|--------------|
| MXM115/LED/M         | MAINTAINED | 4.2          | 1.7          |
